

The K-LOVE radio station has been an asset to my community by providing positive and encouraging music. I feel privileged to have such a station where I don't have to worry about hearing obscene lyrics and comments which have flooded our radio stations and TV networks in the past years. If K-LOVE were to be displaced by an LPFM broadcaster we will no longer have a family friendly station where we can turn to, to hear encouraging words and music. I feel that the services provided by K-LOVE are in the public's interest because they provide wholesome values for our communities across America. Please don't take away such a blessing from our community.
